Supplemental Type Certificate

Number ST01556LA

This Certificate issued to
Meggitt Safety Systems
1915 Voyager Avenue
Simi Valley, CA 93063

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 25* of the Federal Aviation Regulations. *Certification basis is set forth in Type

Original Product Type A16WE
Certificate Number :

Make : The Boeing Company

Model : 737-600, -700, -700C, -800, -900 Airplanes

Description of Type Design Change: Installation of high temperature, semi-rigid, coaxial fire/overheat detection wire harness cable assemblies in accordance with FAA approved Meggitt Safety Systems

737-600/700/800/900 Simi-Rigid, Engine Fire Cable STC Master Drawing List No. 904629, Revision A, dated July 10, 2003, or a later FAA approved revision.

Limitations and Conditions: The installation should not be incorporated in any aircraft unless it is determined that the interrelationship between this installation and any previously approved configuration will not introduce any adverse effect upon the airworthiness of the aircraft. The approval of this modification applies to the above noted airplane model series only. A copy of this STC must be included in the permanent records of the modified aircraft. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
